ARDUINO INTEGRATED DIGITAL TRAINER KIT

RIYA SACHDEVA
SURAT SATHI SAMANTA

RIISE

Electroholics X ece

INPUT LEDs

OUTPUT LEDs

ARDUINO

4511 IC

7 SEGMENT DISPLAY

CLOCK

BUCK BOOST CONVERTER

CONTINUITY CHECKER

Features
- Arduino offers the flexibility to add sensors and programmable components
- Customizable clock frequencies
- Circuit outputs can be plotted

Work in Progress
- Shift the design on a PCB
- Add an LCD screen and multimeter functionality to the kit
- Figure out a way to extract more information from the Serial Plotter output
